

Helping Agents Learning to Cover Construction Risks

The Construction Risk and Insurance Specialist (CRIS®) program will provide you specialized expertise in construction insurance and risk management.

Why Should You Consider this Certification?

Earning the CRIS certification will increase your competence, confidence, and credibility when selling or servicing insurance for contractors. You will get:

- Credibility
- Visibility
- More Sales
- Better Coverage for your Clients
- Career Advancement
- CE Credit

Independent Insurance
Agents of Virginia

HOW TO EARN THE DESIGNATION

Take Core Courses to Earn Your CRIS:

- Commercial Auto, Surety, CIPs and Miscellaneous Lines Course
- Commercial Liability Insurance for Contractors Course
- Contractual Risk Transfer in Construction Course
- Property Insurance for Contractors Course
- Workers Compensation for Contractors Course

Each course has a corresponding exam. The courses can be taken in any order and IIAV offers all 5 classes once each calendar year.

Annual Reaccreditation Requirements

To renew your CRIS certification, you must complete 6 hours of approved continuing education credit each year. You can take an online reaccreditation course or attend approved educational events.
