

## IIAV Quick and Easy E&O Indication

**Getting an E&O Estimate is as easy as 1, 2, 3**

1. Click the "E&O Estimate" link <http://www.iiav.com/default.aspx>.
2. Fill out our one page questionnaire.
3. Return the information by email or fax and we will promptly provide you with a premium indication.

Once you receive your premium indication and would like a firm quote, we will send you a full application to complete. IIAV, through its insurance services department, has several E&O markets to fit all size agencies.

We have markets for the small one person shop with premiums as low as \$400 as well as markets for the larger more diverse agencies with available limits up to \$10M. Whether you are a member or not, we have a program we can offer you. One size does not fit all when it comes to professional liability, and we have the staff with the expertise to help find a market that best meets your needs and budget.

We can even accept a current Utica, Liberty Mutual or Fireman's Fund application to provide quotes and bind with only a short supplemental questionnaire.

THANK YOU for allowing us to provide you with an E&O indication/quote. We look forward to earning your business.
